## **PRESS RELEASE**

Cargo Screening Services (CSS) awarded SAFETY Act Designation  
On August 31, 2010 Cargo Screening Services was awarded the SAFETY Act designation by the U. S. Department of Homeland Security (DHS) for the *Cargo Screening Facilities*.

Cargo Screening Services (CSS) is a TSA Certified Cargo Screening Facility that has been operational since March of 2009. CSS provides State-of-the-art XRAY and ETD screening technology, and a TSA Certified staff. Since March of 2009 we have screened over 3 Million Kilo's of cargo with no delays.

*"This SAFETY Act designation (awarded to CSS), comes after an extensive application and selection process by the U.S. Department of Homeland Security (DHS), makes CSS a complete Cargo Screening Facility"* concluded Mike Mercuri, CSS Principal Security Coordinator.

It is important to understand that with this SAFETY ACT designation CSS is able to extend its cargo screening liability limitations to all customers for anti-terrorism services.

*"This is significant that CSS Customers receive the benefit of this liability protection should an act of terrorism occur, because they have purchased anti-terrorism services from Cargo Screening Services"* claimed Bud Mercuri, Horizon-air President.

Jacob Citrin, the senior executive for the landlord said *"we are thrilled to see CSS achieve this level of regulatory compliance since CSS is of significant importance to other tenants of the project and greatly supports the efficiencies and cost savings such tenants experience by locating at Logan Cargo Park."*
